

INOKIM

urban freedom

“My private jet at the event”

Easy to Use – Our scooters are so easy to use, even for non-drivers, there is a push and go feature and scoot off - it literally is as simple as that. No license required.

Maintenance / Shipping – When purchasing our scooters, we offer full warranty and service on all products. We also ship the scooters out to you and also make it very easy to return back to us if renting.

Efficiency – Our scooters are electric and pollution. They are also compact, easy to maneuver and carry. This means no hassle with finding parking, just unfold the scooter and off you go at up to 25 km/h.

Big Events – Our scooters are great for patrols and staff travelling together or alone. Patrols can perform better and can react faster.

Time – iNOKIM scooters enable workers to move around the campus, car parks and sites more quickly – this enables them more time and allows capacity to cover more jobs on the shift.

Rent or Buy – We at iNOKIM offer short term to long term rental contracts or you can buy upfront. One thing we will always guarantee, is that our rental prices are a lot cheaper than hiring any vehicle for security purpose like buggy's, vans and cars etc.

iNOKIM UK, 327 Euston Road, NW1 3AD, London, United Kingdom
